Dear Parents/Guardian

Alhamdulillah the madrasa is growing every day with your support. As the madrasa is new, we are going through some difficulties and implementing things gradually. We request your duas and support.

As parents are aware that now we have for every section/class a daily record folder. The nazira class records will be kept with the teacher from now due to the missing folders because of the children leaving them at home or losing them. We will have the child's individual record with the teachers which can be viewed by the parents when they want (out of class times). We will keep every month's record in the folder in the office. The green/white folder students have will be used to keep the worksheets given as homework and other important papers.

We have one week **or** two weeks madrasa holidays with the school holidays. Please read below carefully:
